If you have not received a Pin and password for Parent Connect, you will need to email connect@fowlervilleschools.org and ask to be set up with an account. See the attached card.

If you have already received a pin and password you will access your account from the school website which is www.fowlervilleschools.org. Once you are on our main webpage, you will see a tab right under the pictures labeled 'Parent Resources'. Point at that and then scroll down to Parent Connect Log-in. Off to the left you will notice a spot to put your pin and password in. Once you do that you should be able to see assignments and grades.
